

Easy Archive to LTO

Capture more and preserve with confidence

AJA acquisition and editing products like the **Ki Pro** and **Io families** help to make capture, recording and editing as easy as possible, whether working at SD, HD or even 4K.

This creates more flexibility and more productions can be completed in the same amount of time. A natural consequence of this is that recorded files keep piling up which need to be kept safe for long-term security and future needs.

In this situation, it is important to have a solution that supports all file types, offers browsing and searching and writes to the most reliable professional archive media used by banks and corporations worldwide, LTO tape. Choose your own LTO solution and look to Archiware for your archive management needs. In this situation it is important to have a solution that supports all file types, offers browsing and searching and writes to the most reliable professional archive media used by banks and corporations worldwide, LTO tape. Choose your own LTO solution and look to Archiware for your archive management needs.

Archive to LTO Tape

Save space by moving files that are no longer needed for production to the **Archive**. The Archive is the central repository for all completed productions. Browse and search the P5 Archive catalog with previews in any web browser. Add metadata for descriptive and technical details. Scale from a single drive to large libraries. Store off-site for added security. Now the professional long-term security of LTO Tape that is used by large corporations world wide is also accessible for smaller environments. LTO tape offers read/write speeds of up to 360 MB/s (native) and a capacity of 6 TB for LTO-7 and 12 TB for LTO-8. LTO is the only media with a proven **Archive Life of 30 years**. To scale the solution just add new tapes.
