

Professional Archive Made Easy

P5 Archive + Spectra Tape Libraries: Make Space, Take Control

Spectra Logic Tape Libraries come in sizes from 50 to unlimited slots to fit the need of any business, from small production companies to large enterprises.

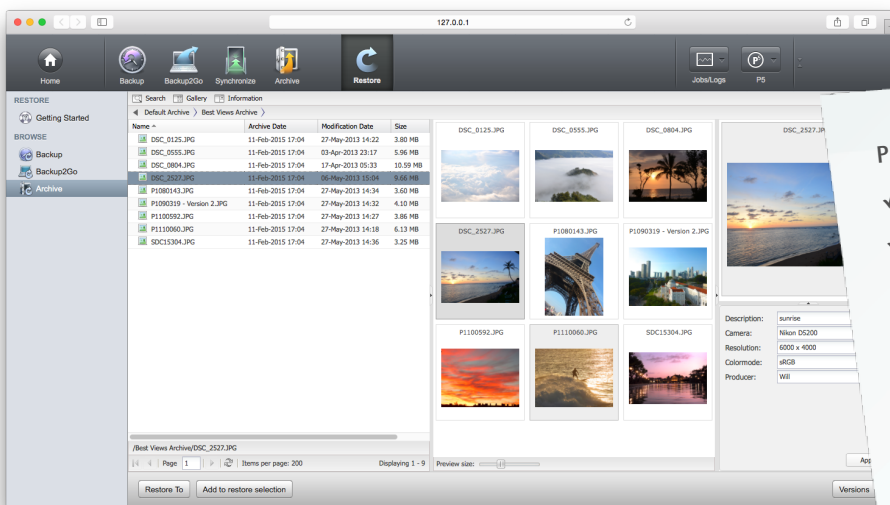

Archiving is the best method to create space on high performance storage. It keeps all important data accessible in one place, reduces the risk of data loss and avoids the hassle of constantly having to increase storage. Archiving also reduces the cost of storage since tape offers the lowest cost per TB of any medium. Browse and search anything anytime.

LTO-8	
Speed	up to 360 MB/s uncompressed
Capacity	12,0 TB uncompressed
Security	Servo Tracks, Verify, Error Correction, Auto Speed
Lifespan	Certified for 30 Years
Off-site storage	Simple, reliable, cost-effective

Archiware P5 Archive, Archiware's fully featured archive software, can be used stand-alone or as the archiving backend for Asset Management systems thanks to its integration friendly interface. In order to offer maximum data security, the feature set of P5 Archive includes a cloning option, creating duplicate sets of tapes for off-site storage or a clone of the archive in the cloud. For LTO tape, the parallelization feature provides scalability regarding performance and number of archive/restore jobs running simultaneously.

Spectra Logic offers tape libraries for all requirements. Combined with P5 Archive, the result is an easy, robust and scalable solution. Access and configuration via browser make it flexible and offer insight wherever you are. P5 supports all Spectra libraries making it the ideal combination for saving your data.

P5 Archive Advantages:

- ✓ Browse Media with Previews/Proxies
- ✓ Search Metadata
- ✓ One Solution for all Platforms (Mac, Win, Linux)
- ✓ User Restore
- ✓ Long-term storage
- ✓ Tape cloning for maximum security
- ✓ Combine with P5 Backup
